

Cipher:

Caesar Cipher (works by shifting letters, Z wrapping back to A. Shifts by 3 characters.)

Encrypted phrase: L ORYH WR FRGH!

Deciphered phrase: I LOVE TO CODE!

### Cybersecurity Breach: MySpace 2016

Over 360 million MySpace users were notified that their information was breached and available for sale online. The account recovery form didn't require much information to take over ownership of the account. They have since required more information and have had stricter policies for recovering accounts. Also, nobody uses MySpace anymore anyways.
